

App. No. 09/611,355  
Amdt. Dated March 5, 2004  
Reply to Office Action of December 5, 2003  
Atty. Dkt. No. 6550-100

**Amendments to the Specification:**

Please replace the Abstract of the Disclosure on page 41 with the following paragraph:

B1  
A method of providing medical care is disclosed, and includes receiving patient medical information; executing a computer program to review said medical information and to request screening information from the patient to determine the severity of the medical condition of the patient; requesting screening information from the patient to determine the severity of the medical condition of the patient; determining whether or not the patient is appropriate to receive a non-emergency house call, in response to screening information received from the patient; sending a message to the patient recommending he or she not receive a non-emergency house call at this time when a non-emergency house call is determined to be not appropriate; accessing a computer data base to select appropriate personnel according to said response personnel description to make a non-emergency house call when it is determined to be appropriate; and sending wireless dispatch information to appropriate personnel to make a non-emergency house call to the patient when such a house call is determined to be appropriate.
